

Thursday 2nd April

Mike & Jason's Squad Session

We need to try to simulate a 400m track, if you have some cones you could use at the corners of a football/rugby pitch as a guide, if not some baseball hats would suffice, to create a simple 400m track around the pitch.

15-minute warm-up followed by Active Drills

Main session

4 x 300m (1st in 52" FR) 3's between efforts

3x 400m (78" R) Lap jog between efforts

4 x 150 stride outs (to help to get the session out of the legs)

10-minute cool-down followed by stretches to finish.
