

Jason's Squad Session

We need to try to simulate a 400m track, if you have some cones you could use at the corners of a football/rugby pitch as a guide, if not some baseball hats would suffice, to create a simple 400m track around the pitch.

15-minute warm-up followed by Active Drills

Main session

4 x 800m (200m jog rec)

Lap jog recovery followed by

6 x 200m (100m jog rec)

10-minute cool-down followed by stretches to finish.

Session Notes:

each effort should be faster than the previous one starting at approx.: 2:46, 2:42, 2:40 & 2:36
